

- Nom de l'enseignant : NDO Cyrille
- Département de : Sciences Biologiques
- Spécialité : Biologie Animale
- Grade : Assistant

1. Ndo C, Yamada H, Damiens DD, N'do S, Seballos G, Gilles JR (2014). X-ray sterilization of the *An. arabiensis* genetic sexing strain 'ANO IPCL1' at pupal and adult stages. *Acta Trop.* 2013 Dec 18;131C:124-128. doi: 10.1016/j.actatropica.2013.11.027.[Epub ahead of print]
2. Sharakhova MV, Antonio-Nkondjio C, Xia A, Ndo C, Awono-Ambene P, Simard F, Sharakhov IV (2013). Polymorphic chromosomal inversions in *Anopheles moucheti*, a major malaria vector in Central Africa. *Med Vet Entomol.* 2013 Nov 5. doi: 10.1111/mve.12037. [Epub ahead of print].
3. Ndo c., Simard F., Kengne P., Awono-Ambene P., Morlais I., Sharakhov I., Fontenille D. & Antonio-Nkondjio C. (2013). Cryptic genetic diversity within the *Anopheles nili* group of malaria vectors in the equatorial forest area of Cameroon (Central Africa). *PLoS ONE* 8(3): e58862. doi:10.1371/journal.pone.0058862
4. Sharakhova M.V., Peery A., Antonio-Nkondjio C., Xia A., Ndo C., Awono-Ambene P., Simard F. & Sharakhov IV. (2013). Cytogenetic analysis of *Anopheles ovengensis* revealed high structural divergence of chromosomes in the *Anopheles nili* group. *Infection, Genetics and Evolution* 16: 341–348.
5. Antonio-Nkondjio C., Defo-Talom B., Tagne-Fotso R., Tene-Fossog B., Ndo C., Lehman LG., Tchuinkam T., Kengne P. & Awono-Ambene P. (2012). High mosquito burden and malaria transmission in a district of the city of Douala, Cameroon. *BMC Infectious Diseases*, 12: 275.
6. Tene Fossog B., Kopya E., Ndo c., Menze-Djantio B., Costantini C., Njiokou F., Awono-Ambene P. & Antonio-Nkondjio C. (2012). Water quantity and *Anopheles gambiae* larval tolerance to pyrethroids in the cities of Douala and Yaounde (Cameroon). *Journal of Tropical Medicine*, 10.1155/2012/429817.

7. Kamdem C., Tene Fossog B., Simard F., Etouna J., Ndo C., Kengne P., Bousses P., Etoa F. x., Awono-Ambene P., Fontenille D., Antonio-Nkondjio C., Besansky N. J. & Costantini C. (2012). Anthropogenic Habitat Disturbance and Ecological Divergence between Incipient Species of the Malaria Mosquito *Anopheles gambiae*. PLoS ONE 7(6): e39453
8. Antonio-Nkondjio C., Tene Fossog B., Ndo C., Menze Djantio B., Zebaze S., Awono-Ambene P. Costantini C., Wondji C. S. & Ranson H. (2011). *Anopheles gambiae* distribution and insecticide resistance in the cities of Douala and Yaoundé (Cameroon): influence of urban agriculture and pollution. Malar. J. 10 : 154.
9. Brenière S. F., Waleckx E., Magallón Gastélum E., Bosseno M. F., Hardy X., Ndo C., Lozano Kasten F., Barnabé C. & Kengne P. (2012). Microsatellite population structure of *Meccus longipennis* (Hemiptera, Reduviidae, Triatominae), vector of Chagas disease in West Mexico, the danger of wild populations. Infections, Genetics and Evolution, 12:254-262.
10. Peery A., Sharakhova M. V., Antonio-Nkondjio C., Ndo C., Simard F., Weill M., & Sharakhov I. V (2011). Improving the population genetics toolbox for the study of the African malaria vector *Anopheles nili*: microsatellite mapping to chromosomes. Parasites and Vectors, 4:202.
11. Ndo C., Menze D. B. & Antonio-Nkondjio C. Awareness, attitudes and prevention of malaria in the cities of Douala and Yaoundé (Cameroon) (2011). Parasites and Vectors, 4:181.
12. Sharakhova M.V., Antonio-Nkondjio C., Xia A., Ndo C., Awono-Ambene P., Simard F. & Sharakhov I.V. (2011). Cytogenetic map for *Anopheles nili*: application for population genetics and comparative physical mapping. Infection, Genetics and Evolution.
13. Antonio-Nkondjio C., Tene Fossog B., Ndo C., Menze Djantio B., Zebaze S., Awono-Ambene P. Costantini C., Wondji C. S. & Ranson H. (2011). *Anopheles gambiae* distribution and insecticide resistance in the cities of Douala and Yaoundé (Cameroon): influence of urban agriculture and pollution. Malar. J. 10 : 154.
14. Ndo C., Antonio-Nkondjio C., Cohuet A., Ayala D., Kengne p., Morlais I., Awono-Ambene

H.P., Couret D., Ngassam P., Fontenille D. & Simard F. (2010). Population genetic structure of the malaria vector *Anopheles nili* in sub-Saharan Africa. *Malar. J.* 9:161.

15. Antonio Nkondjio C., Ndo C., Costantini C., Awono-Ambene P., Fontenille D. & Simard F. (2009). Distribution and larval habitat characterization of *Anopheles moucheti*, *Anopheles nili*, and other malaria vectors in river networks of southern Cameroon. *Acta Trop.* 112: 270-276.

16. Awono-Ambene P., Antonio-Nkondjio C., Toto JC., Ndo C., Etang J., Fontenille D & Simard F (2009). Epidemiological importance of the *Anopheles nili* group of malaria vectors in equatorial villages of

Cameroon, Central Africa. *Sciences and Medicine in Africa*, 1:13-20.

17. Antonio-Nkondjio C., Ndo C., Kengne P., Mukwaya L., Awono-Ambene H.P, Fontenille D. & Simard F. (2008). Population structure of the malaria vector *Anopheles moucheti* in the equatorial forest region of Africa. *Malar. J.* 7:120.

18. Antonio-Nkondjio C., Atangana J., Ndo C., Awono-Ambene H.P., Fondjo E., Fontenille D., & Simard F. (2008). Malaria transmission and rice cultivation in Lagdo, northern Cameroon. *Trans. Roy. Soc. Trop. Med. Hyg.* 102, 352-359.

19. Antonio-Nkondjio C., Ndo C., Awono-Ambene H.P., Ngassam P., Fontenille D. & Simard F. (2007). Population genetic structure of the malaria vector *Anopheles moucheti* in South Cameroon forest region. *Acta Trop.* 101: 61-68.
